Chapter 1: Basic Info	6
1.1 Basic info	6
1.2 Energy potential	10
1.3 Electricity prices	12
Chapter 2: Electricity market opening and trade	14
2.1 Introduction	14
2.2. Sanctions against BiH by Energy Community	16
2.3 Electricity purchase/sale tenders	16
2.4 Establishment of Bosnian electricity exchange	17
Chapter 3: Market players	18
3.1 Utilities and authorities	18
3.2 Electricity trading companies	26
3.3 Companies involved in generation projects	26
3.4 Arbitration for TPP Ugljevik (Slovenia - RS dispute)	28
3.5 Arbitration for TPP Gacko (Croatia - RS dispute)	29
Chapter 4: Privatizations	30
Chapter 5: Electricity projects	31
5.1 Generation projects	31
Completed Projects	32
5.1.1 Thermal Power Plant Stanari	33
5.1.2 Hydro Power Plant Bocac 2	33
5.1.3 Wind Farm Mesihovina	34
5.1.4 Hydro Power Plant Bogatici-Nova	35
In Development/Announced Projects	35
5.1.5 Thermal Power Plant Tuzla, new unit	35
5.1.6 Thermal Power Plant Kongora	39
5.1.7 Thermal Power Plant Kakanj, new unit	39
5.1.8 Thermal Power Plant Bugojno	39
5.1.9 Thermal Power Plant Banovici	40
5.1.10 Thermal Power Plant Gacko, new unit	41
5.1.11 Thermal Power Plant Ugljevik, unit 3	43
5.1.12 Combined Heat and Power Plant Zenica	44
5.1.13 Thermal Power Plant in Miljevina mine	44
5.1.14 Thermal Power Plant Kamengrad	45
5.1.15 CHPP Zenica	45

5.1.16 Hydro Power Plant Uskotina	46
5.1.17 Hydro Power Plant Vranduk	46
5.1.18 Hydro Power Plant Unac	48
5.1.19 Hydro Power Plant Vrilo	48
5.1.20 Hydro Power Plants on Neretva River	48
5.1.21 Hydro Power Plant Bjelimici	49
5.1.22 Hydro Power Plant Glavaticevo	49
5.1.23 Other hydro projects - EP BiH	49
5.1.24 Hydro Power Plants on Trebisnjica River	49
5.1.25 Hydro Power Plants on Drina River	50
5.2.26 Hydro Power Plant Janjici	54
5.1.27 Hydro Power Plant Krusevo	54
5.1.28 Hydro Power Plant Ulog	54
5.1.29 Hydro Power Plant Mrsovo	55
5.1.30 Hydro Power Plant Dubrovnik 2	55
5.1.31 Hydro Power Plant Cijevna 3	56
5.1.32 Hydro Power Plants on Vrbas River	56
5.1.33 Wind farm Podvelezje	57
5.1.34 Wind farm Bosanski Petrovac	58
5.1.35 Wind Farm on Trusina Mountain	59
5.1.36 Wind Farm on Poklecani	60
5.1.37 Wind farm near Travnik	60
5.1.38 Wind farm Plocno	60
5.1.39 Wind farm Vlastic	61
5.1.40 Wind farm Debelo Brdo	61
5.1.41 Wind farm Jelovaca	62
5.1.42 Wind farm Hrgud	62
5.1.43 Wind farm Galica	62
5.1.44 Wind farms with 200 MW output	62
5.1.45 Wind farm Gradina	63
5.1.46 Wind farm Ivovik	63
5.1.47 Eol Prvi wind farms	63
5.1.48 Wind farm Sarajevo - Suzlon	64
5.1.49 Wind farm Grebak	64
5.1.50 Wind farm Siroka Draga	64
5.1.51 Wind farm Bitovnja	65
5.2 Transmission projects	65

Chapter 6: Renewable energy	66
6.1 Introduction and feed-in tariffs	66
6.2 Small hydro power plants	68
6.3 Wind energy	70
6.4 Biomass & biogas energy	80
6.5 Solar energy	80
6.6 Geothermal energy	81
Chapter 7: Consumption, generation and export	82
7.1 Electricity consumption	82
7.2 Electricity generation and export	85
Chapter 8: Existing generation facilities and electricity transmission	89
8.1 Thermal Power Plants	89
8.2 Hydro power plants	96
8.3 Electricity transmission	101
8.4 Transmission capacity and monthly auctions - Patterns and graphs	105
8.5 Transmission capacity and monthly auctions - numeric values (history)	116

Table of content, Bulgaria (149 pages)

Chapter 1: Basic Info	5
1.1 Basic info	5
1.2 Energy potential	9
1.3 Electricity prices	12
1.4 Electricity export fee	16
Chapter 2: Electricity market opening and trade	17
Chapter 3: Market players	24
3.1 Utilities and authorities	24
3.2 NEK - KEVR - Distributors dispute	33
3.3 Issues related to stability of the system	36
3.4 Resignation of government and CEZ issue	38
3.5 EC report on energy sector (2014)	41
3.6 EC and World Bank report on local energy sector (2013)	41
3.7 Most recent EC report on Bulgarian Energy Holding	42
3.8 Long term contracts with two US-owned power plants	42
3.9 Sale of CEZ assets	46
Chapter 4: Electricity projects	51
4.1 Nuclear Power Plant Kozloduy, new unit	51
4.2 Nuclear Power Plant Belene	55
4.3 New unit in Thermal Power Plant Maritsa Iztok 3	61
4.4 New unit in Maritsa Iztok 3 complex	61
4.5 Hydro Power Plant on Maritsa River	62
4.6 Gorna Arda hydro cascade	62
4.7 Hydro Power Plant on Danube	63
4.8 Rehabilitation of Hydro Power Plants	64
Chapter 5: Renewable energy	65
5.1 Introduction	65
5.2 20% income tax for wind and solar producers	68
5.3 Grid access fee	70
5.4 Small hydro power plants	70
5.5 Wind energy	71
5.6 Biomass & biogas energy	71

5.7 Solar energy	72
5.8 Geothermal energy	74
Chapter 6: Consumption, generation and export	75
6.1 Electricity consumption	75
6.2 Electricity distribution	78
6.3 Electricity generation and export	84
Chapter 7: Existing generation facilities and electricity transmissions	90
7.1 Thermal Power Plants	90
7.2 Hydro power plants	103
7.3 Electricity transmission	106
7.4 Transmission capacity and monthly auctions - Patterns and graphs	109
7.5 Transmission capacity and monthly auctions - numeric values (history)	134

All products available online on HU + SEE WEB PORTAL

www.portal.balkanenergy.com

1. HUPX + SEE SPOT Support (New product):

Daily HUPX forecast and daily HU+SEE analytical support

- Hourly HUPX forecasts - Day-ahead
- Week-ahead HUPX forecasts
- Fresh HUPX forecast, data and outages update at 08:30h
- All the daily analytics a spot trader needs
- All the daily information relevant for spot trading
- Daily forecast of prices, generation, consumption and flows

Subscription fee: **300 EUR per month** - company licensed, unlimited number of users

2. ENERGY NEWS service

The most comprehensive and the most affordable source of energy info for Hungary and South Eastern Europe

ENERGY NEWS - POWER DATA - TRADING DATA - TENDERS - ANALYSES - AUCTIONS

Service includes Web portal access, downloads and email delivery, with no user number limit:

NEWS DATABASE: over 19,000 energy news articles published by Balkan Energy

PDF: SEE+Hungary Energy Daily: 3 times per week (55-60 pages per edition) + excel files

PDF: Balkan Energy NEWS publication: 2 times per month (90-110 pages per edition) + excel

Subscription fee: **800 EUR annually** - company licensed, unlimited number of users

3. Month ahead forecast: HUPX and SEE Trading Tool

Month ahead HUPX and SEE electricity price forecast

Published for each month 15 days before the month starts. Report contains HUPX price forecast for the following month, buy/sell suggestions, analytics, fundamentals, maintenance plans, statistical data, market description and other info necessary for making month ahead trading decisions

Subscription fee: **300 EUR per month**, company licensed.

4. Country Reports

Essential energy info source for countries of SEE

- General overview of the electricity market
- Consumption, production, export characteristics
- Legislation and electricity market opening
- Potentials for investments in power generation
- Analyses of seasonal export/import trends
- Detailed analysis of Cross Border Capacities
- Actualities – hot topics
- Key market players
- Electricity prices and tariffs
- Privatizations
- Current state of RES sector

Subscription fee 290 EUR per country - 250 EUR for Energy NEWS subscribers
1,690 EUR all 8 countries - 999 EUR for Energy NEWS subscribers
Available for: BiH, BG, HR, ME, MK, RO, RS, SI - over 800 pages

CONSULTING: Hungary and SEE power markets expertise

We can support you with our expertise and expertise of professionals within our network. During last 15 years we established a strong network of experts and large know-how data base with which we can support you in your energy related business in Hungary and SEE. Our core consulting competences lay in:

- Power Market trends in Hungary and SEE
- Support with investments in generation in SEE
- Power supply (industry and households) business in SEE
- Long term price forecasting and strategic decision making
- Power trading support for Hungary and SEE

Delivery of products to users

- All products are company licensed - unlimited number of users within company
- Each user within company can use Power Portal and access subscribed products online
- Each user can individually specify IF and what to receive by email (News, PDFs, Excel data)
- There are no additional charges for multiple users, or usage of online features / email deliveries
